WDBS DARTMOUTH BROADCASTING SYSTEM
49 ROBINSON HALL · HANOVER · NEW HAMPSHIRE · TELEPHONE 30

September 20, 1950

Mr. Howard Eaton
Production Director
Radio Station WYBC
New Haven, Conn.

Dear Howie:

I arrived today in Hanover ahead of the other members of the WDBS staff and found a couple of communications from you and will endeavor to send this at once to answer at least some of the questions you had in mind. Since school does not start until the 26th we are not in operation yet.

Action will be taken on the Newsweek and Times matters as soon as the Business Section and the Ivy Representative arrive in reguard to the exact schedule dates. Since our "pre-season" program schedule will have some fairly radical changes due to the opening of the new Granite State Network outlet here and a possible exchange of material between us, at this time I can only state that the Newsweek show was slated to be aired at 10:15PM on Thursdays. Furthur information will be coming in a day or two. I also will be happier when these administrative matters are taken care of and the more creative, I say with tongue in cheek, side of broadcasting can be attended to.

We are going to make an immediate purchase of a new tape recorder after the first Directorate meeting and the plan to exchange sports interviews, as well as many other features, is an excellent idea and should benefit both stations. I have enclosed out football line-up and will appreciate more information from you as to what the other Ivy outlets would like and some exact dates to work from.

I have sent on the material from the Princeton Alumni Weekly and will send on to you soon the wonderful four page spread we of WDBS received in the Dartmouth Alumni Monthly. To be frank- if PBS, Smith, etc., - can make the national weeklies so can we.

My summer was very worthwhile in work and play and, with a worn but refreshed constitution, I'm sure this will be the most progressive year yet. I'll contact you at once when more information is available.

Best wishes,
Bill
Bill Terry
